Conservative Reunion.

The "rmoker" given Friday night in the town hall by the Conservative association was a very successful affair. Col F C Jamieson, who has been spending a vacation at Sobe Beach following the strenuous campaign, motored down, and gave a characteristic speech, and thanked his supporters and workers for the good work accomplished for the party at the recent federal election.

It is the intention to keep the local organization intact, and a meeting will be held at which permanent officers will be elected.

The Corp. in the Limelight.

Corp. F G Moses made another courageous capture of a desperate criminal last week, when, single-handed, he got an armed highwayman, who had held up a motorist near Colinton at the point of a revolver.

The man had rode out from some brush, and asked for a car ride. Accommodating him, the motorist Steve Brokonak, took him aboard; but he had not been long on the car, when he ordered Steve to "Thow 'Em Up!" He then went thru Steve's jeans, ordered him out of the car, and beat it down the trail in high.

Shortly after the Corporal was notified of the occurrence, he was on the trail of the marauder, captured him, as stated, and took him to headquarters in Edmonton.

The Corporal was formerly a "Mountie" and had the reputation of always "getting his man."

Walther League Convention.

The tenth annual Walther League convention held near Fort Saskatchewan was the most successful yet held; 80 young people were in attendance with delegates and visitors from Edmonton, Calgary, Stony Plain, and other centres. The convention program was brought to a close by a special inspirational service in which Rev John E Herzer of Winnipeg delivered the sermon.

The following were elected to serve the district league as officers for the ensuing year: Val J Kulak, President; Ph Enders, V-Pres.; Lillian Schneider, Treas.; Mathilda Enders, Sec.; Miss H Rossau, Hosptice Sec.; Rev Boettcher, Field Sec.

The Leaguers of Bethany church entertained their visitors in approved style.

Mistakes

Glancing through a magazine recently the writer's attention was attracted by an article bearing the same title as appears at the heading of this column, "Mistakes." It was a short article, but two paragraphs in it stood out as important and worth-while—worth passing on for the consideration of those who read this column from week to week:

After reciting mistakes made by "Great Men of Business," and the different ways in which they react to them, the article in question offered comment:

"Going back over history, it would seem that mistakes, of themselves, are comparatively unimportant. All men make them. The important thing is how a man acts afterwards."

There is sound philosophy in that observation. It is deserving of more than passing attention.

All people make mistakes. Not one of us is infallible. The real test is: Do we profit by them? Do we use them as stepping stones to real achievements; to the winning of success? Or are we embittered by them; discouraged; inclined to give up and let go?

When a business man makes a mistake, jeopardizes, even loses, the savings and accumulations of a life time, and then begins to think of throwing up the sponge, contemplates suicide, or some other rash act, it is a confession that he was not a really big man after all; that he is lacking in stamina, will-power and true courage.

Experience is a hard taskmaster, a bitter teacher, but—it is a teacher, and a good one at that, because it is through experience that we learn. It teaches us to bring men as well as little men. Nor is it individuals alone who make them. Governments make them, communities make them, nations make them. They must pay for their mistakes, but they can also profit from them.

One of the mistakes of this present age is to confuse bigness with greatness, to confuse quantity with quality. Next year the census of Canada will be taken, and already communities are anxiously awaiting the figures to ascertain to how large an extent they have grown in population, each town and city hoping that they have outstripped their rivals. But how many have been giving serious consideration during the past ten years to the quality, rather than the quantity of their citizenship? The United States census has just been completed; and we find some of their larger cities, while boasting of their growth in size, seriously regretting that they were not smaller by some thousands of criminals and others of an undesirable class. In their ambition to become big and bigger they have made the mistake of ignoring the quality of their citizenship, and neglected the social provisions which would make their communities big in the truest, highest sense.

It is not the manufacturer who, through mass production, is turning out an enormous volume of products who is the truly successful man and a benefit to his country; the really successful man is he who is producing quality products. Nor is it the farmer who is operating several sections of land in a more or less indifferent way who, in the long run, will prove successful; it is the farmer who is farming intelligently, striving to raise the best quality of grain, the best grade of stock, poultry and dairy products, with trees and flower and vegetable gardens, who is establishing a real home, making a lasting contribution to his country, and a success in his life work.

But to return to our theme, "Mistakes." All men make them. Do not be discouraged by yours. Remember, the important thing is how a man acts afterwards.

This is a comforting thought. You can retrieve your mistakes. If you have been right during the past five or ten years you might be much better off financially today than you are. But you have those experiences to guide you now, and you can profit from them if you will.

But, and here let us quote the second outstanding paragraph in the magazine article to which reference has been made. It reads:

"Don't make the most serious mistake of all, that is to think about your mistakes."

Forget them, except to profit by them. Don't brood over them; don't let them discourage or embitter you; don't weaken; don't regard them as irretrievable disasters. Be up and doing; forget them; use them to rise to greater heights and a larger success.

Would Depart Communists

**U.S. Congress Is Urged To Take
Necessary Steps**

Representative Hamilton Fish, Jr., in a radio address from New York, urged that congress take appropriate steps to deport all alien agitators and Communists affiliated with the Third International.

"We have tolerated them and their criminal activities too long," he said. "Let them go forth, or be deported back to their native land."

Congressman Fish, who is chairman of the special committee investigating Communist propaganda in

the United States, asserted that what the Communist leaders do in Russia is solely the business of the Russian welfare.

"What the emissaries of the Soviets do in the United States of America, however, is our business," he added.

Douglas' Egyptian Liniment is reliable. It is quick, effective, relieving. Relieves instantly burns, sprains, toothache and neuralgia. Invaluable for sore throat, croup and quinny.

Women For Scotland Yard

Scotland Yard will employ women of super mentality to assist the "Big Five" in their efforts to solve crime. At first only three will be utilized to probe mysteries mainly incidental to the activities of the female crook, and if their work is successful a squad of fair detectives will be organized.

Elevator Contract Is Let

A contract for the excavation and pile foundation work for the proposed government 1,000,000-bushel capacity grain elevator to be built at Lethbridge, Alberta, has been let by the governor-in-council. The Nelson River Construction Company at Winnipeg, was the successful tenderer, with the lowest bid of \$62,292.

Time Element In Cancer

**Different Periods Of Life Have
Bearing On the Trouble**

A curious time element in cancer is described by Sir George Lenthal Cheate, British cancer authority. He is chief surgeon of King's College Hospital, in London, England, and is at the British Medical Association meeting in Winnipeg.

There is a time when previously harmless stages of growths are likely to become cancer rather suddenly. This is in the same relative period of life for both men and animals.

"It suggests," Sir George said, "that either some fresh, as yet unknown factor or agent may enter the body just at the critical time and cause cancer, or that the different parts of the whole cycle for a condition like cancer may in part pass naturally from one stage to the final catastrophe of cancer."

"The first stage is most prevalent from the late twenties to the thirties, the second stage takes form in the late thirties and early forties. The change into cancer occurs in the late forties and early fifties of life."

**Guard Baby's Health
in the Summer**

The summer months are the most dangerous to children. The complaints of that season, which are cholera, infantum, colic, diarrhoea and dysentery, come on so quickly that often a little child is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent the transmission of disease or suddenly to banish them. No other medicine is of such aid to mothers during hot weather as Baby's Own Liniment. It is regularly strong and bowls and absolutely safe. Sold by medicine dealers by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Large Organ In Paris

Having 4,800 pipes, one of France's largest pipe organs was recently dedicated in the huge Salle Pleyel, a concert hall in Paris. The instrument has 71 stops. Its concealed machinery is controlled by 75 wires contained in one cable connecting the organ with a chamber under the stage.

It Will Prevent Ulcerated Throat

At the first symptoms of sore throat, which precede ulceration and inflammation, take a spoonful of Dr. Thomas' Electro Oil. Add a little water to it to make it a poultice, and will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

Saskatoon's Growth

Approximately 10,000 names will be added to the voters' list in Saskatoon riding, figures compiled by enumerators reveal. The total will likely be in the neighborhood of 29,000. The urban areas are expected to mount from 13,335 in 1926, to 22,000 this year, indicating the substantial growth in Saskatoon's population.

Persian Balm—Invaluable to the whole Family. To the mother, a drowsy aid to sleeplessness. To the child a soother, a cold and heat salve and cooling shaving lotion. Persian Balm tones and refreshes the skin. Makes hands delightful, soft and white. A little gentle rubbing and it is absorbed by the tissues, making the skin truly rose-leathery texture.

Cut To Stop Use

"It's a funny use to make of it," commented Dr. C. H. Best, co-discoverer of insulin with Dr. F. G. Banting, on the report that the London Society for the Study of Inebriety is using insulin for the treatment of delirium tremens. Dr. Best explained that an overdose of insulin is equivalent to an overdose of alcohol.

Saskatchewan Wheat Pool

According to the latest report the Saskatchewan Wheat Pool has a membership of 82,290 farmers. During the year ended May 31st, the provincial organization handled through its own elevators 87.2 per cent. of all pool grain—this being said to be the high water mark of co-operative grain handling.

Interest in mail and travel aviation in Argentina is growing rapidly.

Minard's Liniment removes Warts, relieves Bunions.

**Don't Let Constipation
Lead You Into Serious
Illness**

Serious rectal troubles, piles, paralysis, hemorrhoids, are frequently the result of using cheap cathartics.

ENO is pleasant, gentle, safe and sure.

A daily dash of ENO in a glass of water every morning, tones up and sweetens the entire system.

Importance Of Rubber Industry

**Canadian Rubber Products Exported
To Many Countries**

Now-a-days the world moves on rubber and this does not apply to automobile tires. According to a recent return of the Canadian Government to the people of Nigeria in June, bought 300 pairs of shoes with rubber soles from Canada. Barbados took 3,020 pairs and Trinidad 6,555 pairs.

Although Canada is not a producer of raw rubber, the rubber industry is of much importance and rubber products are exported to many countries of the world. In June the export of Canadian automobile tires exceeded \$1,000,000. The largest buyers were New Zealand, British South Africa, Belgium, Argentina and Brazil.

Moslem Women Progressive

**Congress Held At Damascus Asks
Reforms For Progressive**

The London Daily Herald says that women delegates from nearly every Moslem country have just concluded a congress at Damascus which represents the first concerted move by women of the Islamic faith to escape its restrictions.

The correspondent is calling for abolition of the veil; for permitting brides and bridegrooms to see each other before marriage; for making divorce possible to women equally with men; for making 18 years the legal minimum age for marriage, and for compulsory education of children of both sexes.

Have Minard's Liniment on your shelf.

Statutes To Women

There are statutes to be, women in London, England; of these, six are queens, the other half-dozen being Mrs. Siddons, the actress, Florence Nightingale, Grace Darling, Nurse Cavell, Margaret MacDonald, the Prime Minister's wife, and Mrs. Pankhurst.

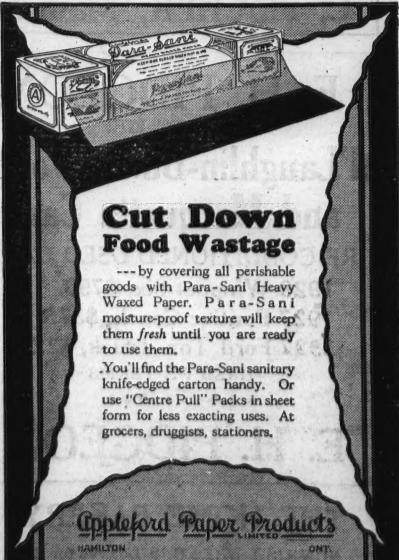

Cut In Naval Costs

Mr. Hon. A. V. Alexander, First Lord of the Admiralty, announced in House of Commons that the Labor Government reduced the cost of the British naval building program for 1928-29 by an estimated £12,000,000. Mr. Alexander made the announcement in reply to a question about how much naval costs had been reduced since the present government took office.

If a woman isn't married she wants to be, and if she is, the chances are she doesn't want to be.

Western Homesteads Can Be Beautified by Planting Flowering Shrubs About House and Yard

Far too many homesteads lack the finished effect that may be obtained by planting a few flowering shrubs about the house and yard. Without shrubs there is nothing to fill the angles formed by paths or fences, or to screen unsightly objects; nothing to soften the abrupt angles formed by the corners of the building or where the foundation meets the ground; nothing to take away the appearance of the home and to give it an air of permanence and cosiness.

The majority of people appreciate the beauty of shrubbery, and realize how much improvement can be brought about by its use, but for various reasons many fail to do any planting. The chief reasons for this neglect are probably the cost of planting material and a lack of knowledge as to what to plant. If all the planting material is bought at one time, the cost is in many cases prohibitive, and if the work is to be done with the hand, it will be considerable. For this reason it is never wise to attempt to do a great deal in any one year. A little planting done each year and done well will bring surprising results in a short time. The cost of many beautiful flowering shrubs is small; and everyone can afford to buy at least one or two each year. Some cannot be propagated easily by the amateur and therefore have to be purchased from a nurseryman. Others are very easily propagated, and when one specimen has been bought, it may easily be increased to supply all of the species that may be required.

Many plans for the arrangement of planting material have been given by experts from time to time. These frequently involve a large outlay and considerable study, but, while they may lead to wonderful results, they also have the effect of discouraging those who are able to do only a small amount of planting. This should not deter anyone from making a start. The greatest amount of pleasure will be found in arranging the shrubs to suit one's individual taste. If, after a time one sees where an improvement could be made, the shrubs may easily be transplanted and rearranged.

There are a few simple rules which may help one to avoid common mistakes. Do not plant the shrubs too close to the foundation of the house, but picture them as they may be ten or twelve years after planting, and allow them plenty of room to develop a symmetrical shape. If the earth is poor and consists chiefly of subsoil thrown out from the cellar, dig a hole about three feet in diameter and about twenty inches deep, fill it with good earth from the garden or yard, work in some well-rotted manure as the clay is filled in, and pack the clay firmly while filling. Then plant the shrub in the centre being careful not to have manure in direct contact with the roots. Cultivate the surface occasionally for at least for the first two or three years, or till the shrub is firmly established and has made considerable growth. When planting shrubs in a shady position, be careful to choose species that do well in the shade. Whenever possible visit the nearest Experimental Station during the growing season. This will assist in making a choice of varieties. Send for the nurserymen's catalogues and study them. They contain many valuable suggestions.

"I hate going home; my wife never does anything in the house."

"I mustn't grumble, I've a fine wife. She makes my bed, cleans my boots—and even turns out my pockets."—Moustique, Charleroi.

W. N. W. 1850

Wealth From Forests

Canada Is the Chief Source Of the World's Paper Supply

The forests of Canada continue to be the chief source of the world's paper supply. During the past month Canadian paper has been exported to 33 countries, ranging through the alphabet from Australia to Uruguay. Without the forests and paper mills of Canada the business of supplying the world's news to the public would be seriously restricted. Canada is becoming as famous for her paper as for her wheat.

Paper and wheat are more closely related than appears on the surface. Much of Canada's forested area is potentially good farming country, and the forests are used for the manufacture of paper the land goes under the plough and is devoted to agricultural production. Forests, in such cases, are a source of income to the new settler, who receives cash for his pulpwood while clearing it off his land.

While Canada's principal export of paper is for printing purposes there is an interesting variety of other paper products. Wrapping paper, writing paper and wall paper are exported to many countries, and in June more than a million pounds of paper wall boards for building purposes were exported to the United Kingdom alone.

(By Annabelle Worthington.)

2547

A red and white dotted dentity that will instantly win approval with the dainty Miss of 8, 10, 12 and 14 years. It's sleeveless! So comfortably cool and smart! The crisp white lace on the collar falls in prettily over the arms giving the impression of cape sleeves.

The circular skirt with shaped hip you, contributes smart sophistication.

Problems For the Farmer

Low Wheat Prices Create a Difficult Situation For the Grain Grower

With the world wheat crop coming along and a large surplus still on hand from the previous year, the situation is far from cheerful. Everybody in an agricultural country such as Canada has a stake in the state of the farming industry, yet it will be conceded that the problem rests more heavily on the shoulders of the actual producer than on anyone else.

Difficulty is met in predicting the probable curve of wheat prices for the reason that a year of small yields over any large section of the world's wheat growing areas would be almost certain to lead to an advance in price that would make the grain grower like a representative business to the producers who happened to have wheat for sale. At the same time there is a fairly widespread opinion that wheat prices are likely to remain at a lower level than has been the case during the last seven or eight years. This would indicate that the world is producing all the wheat that the world can afford to buy and that the surpluses are responsible for the sharp break in prices.

Will it benefit Canadian farmers to grow less wheat under the circumstances? If the wheat acreage is reduced, what is to take its place? Is there any reason to believe that the other wheat growing countries in the world will reduce their acreage? Can the lands of Western Canada be turned to some other form of farming that will be profitable? Can a change in farm methods make it possible for the Western Canadian farmer to grow wheat at a profit even when the price is low?

In the last analysis it appears to be the job of the farmer to suggest means for solving his own problem. If he is the victim of exploitation this should be made known. His methods and what they should be possible for success. We have the successful farmers in Western Canada who should be able to throw some light on the problems that confront the country's basic industry—Regina Leader-Post.

Mining In British Columbia

Increases Quantity Production In the Aggregate Of Metals

Despite world-wide depression in the mining industry, following the drop in metal prices, mining in British Columbia during the first half of the year has shown encouraging progress, according to the semi-annual summary of the British Columbia Department of Mines.

There was increased quantity production in the aggregate of mineral and metals, but owing to low metal prices, the gross value dropped from \$34,122,722 in the first half of 1929 to an estimated \$29,609,481 for the first half of 1930, a deficit of more than 12 per cent. Among the unfavorable features are included the rather uncertain outlook for any material movement in silver and zinc prices for some time to come, which may cause certain hitherto productive mines in British Columbia to remain closed indefinitely. Coal production also fell away 18 per cent.

Scientists have now produced an artificial silk from water and carbon dioxide gas.

"ROUND A CANADIAN CAMP FIRE"

On the terrace of the Banff Springs Hotel recently the above-named ballad opera was presented by the Alfred Heather Light Opera Company, now giving a two-month season of Canadian and Old English ballad operas at the hotel. Tepee, log fire, cordwood seats and even a portable organ were among the props and hundreds of guests were shown what an evening camp and sing-song are like. The Opera Company was assisted by Trail Riders of the Canadian Rockies seen clustered around the fire. The scene will live long in the memories of those who witnessed it.

Surplus Of Wheat Is A World Condition And Not Restricted To Canada Alone

Successful Field Day

Manitoba Wheat Pool Sponsors Gathering At Brandon Experimental Farm

About 300 people from thirty-three points adjacent were represented at the successful field day arranged by the Manitoba wheat pool and held at the Experimental Farm at Brandon. E. J. Watson, local field man for the wheat pool, had charge of the arrangements.

The horticultural work being done at the farm under the direction of J. G. Cawthron, visited by the visitors, guided by E. I. Sturgeson, they then inspected the cereal plots where Mr. Sturgeson drew attention to the treatment of summerfallow, comparing plowing summerfallow with the use of the cultivator only. They also visited the cereal breeding plots.

The advantage of plowing under sweet clover as a means of soil enrichment instead of plowing under grass was evident when the party, accompanied Dr. Buckley to view plots where crops were flourishing where land had been so treated.

Mr. Harrison explained how to select wheat for seed plots for registered seed or exhibition work. Adjournment was made to the tent where these problems were discussed further.

Mr. Mahoney, of the Wheat Pool, acted as chairman.

While the men were touring the grain plots the women were shown the results of poultry feeding tests with cod liver oil and grain mixtures. R. M. Hopper gave a demonstration of the best ways to cull poultry.

Food Preservative

Scientists Isolate Natural Agent In Milk Which Prevents Growth Of Micro-Organisms

A successful, non-poisonous food preservative may be obtained from cow's milk as a result of recent investigations reported by Drs. F. S. Jones and H. S. Simms of the Rockefeller Institute for Medical Research. The natural agent in milk which prevents the growth of micro-organisms. It is found in the whey after the routine separation of the butter-fat and casein. It can be obtained in pure form in a powder which keeps for several months. One grain of the powder added to a gallon of the ordinary medium on which germs grow will prevent their growth, it is reported.

Bounty On Coyotes

Payment of a bounty on coyotes, for which the farmers of British Columbia, especially the sheep men, have been agitating since the bounty was abolished last year, will be resumed under a recent order-in-council. The Department of Agriculture will pay a bounty at the former rates of \$1.50 for each coyote, \$1.00 for wolves, and \$40 on cougars. Trained hunters may also be used to kill off predatory animals when necessary.

Many people these days are disposed to criticize the Canadian Wheat Pool for the large quantity of wheat that will be carried over in this country into the new crop year, says the Hon. Murray. They will, however, still temper their criticisms somewhat when they become conversant with the fact that the surplus of wheat is a world condition and not restricted to Canada alone. Some weeks ago attention was directed in these columns to the fact that in the United States the situation was recognized as so important that the Department of Agriculture at Washington, got out a survey of the world situation, and suggested that a reduction of acreage by the American wheat farmer in conjunction with a study of his costs would be the most effective course. The fact that the United States Government takes such action recalls in a measure the uproar which was caused by the British policy of rubber plant restriction a year or two ago.

In the years since the war the acreage sown to wheat has shown a steady increase all over the world and with supplies increasing at a rate faster than the consumption it was inevitable that a surplus should be created. Just how this is to be absorbed in the next few years, short of a total crop failure, constitutes a problem.

Oriental grain is generally indicated as the most likely part of the world to increase its consumption of wheat. The rice-eating people of the East are gradually becoming wheat consumers to a greater extent. This has been due, no doubt, to a variety of reasons, one of which may doubtless be traced to the large numbers of Chinese laborers employed during the great war in France. Many who saw service in France will remember the Chinese labor battalions eating their midday meal by the roadside, boiling what looked like big dumplings of dough made from wheat flour. Moreover, it has been noted previously, scientific work in the school children in Japan and the Philippines have demonstrated the advantage of adding wheat to the diet.

However, in the meantime, new areas of the Canadian West have been opened up from year to year and more land brought under the plow while South America and Australia have also tended in the same direction and supply has increased faster than demand. Whatever fault may be found with the Pool for its method of trading, they are not altogether to blame for the fact that Canada will have a large wheat surplus.

Central Heating Plan

Central Heating Plants In Winnipeg Are Being Extended

In Winnipeg "central heating" does not mean a furnace in the basement of each house—it means a large central plant from which the heat is piped to many blocks of business buildings and residences. This principle of heating is not a new thing in Winnipeg, where it was first established in 1924. The municipal steam-electric plant which was required as a stand-by for electric power was utilized to provide heat which was piped through a certain area of the down-town part of the city. Electric boilers were installed and power developed in the Winnipeg River was used for the production of heat when not required for other purposes. The scheme proved a success and has since been extended. A private company is now entering the field with a \$2,000,000 steam-heating plant in another section of the city.

Wife: "That man always wears his medal for bravery."

Husband: "Well, what about it? I always wear my wedding ring."

Hummel, Hamburg.

WORLD HAPPENINGS
BRIEFLY TOLD

In a recent month 12 tons of freight were carried by air from the Netherlands to London, England.

Victoria, largest dry spot on the peer map of British Columbia, may vote again shortly on the question of beer parlors.

With labor unrest spreading throughout northern France, a general strike of textile workers in Rouen and Halquin was called, affecting nearly 100,000.

The gross earnings of the Canadian National Railways for the ten-day period ending July 31, were \$6,019,504 as compared with \$8,224,994 for the corresponding period of 1929, a decrease of \$1,705,490.

Second he has written more inspirational poetry. Conrad Aiken, well known United States poet, has sailed for England, possibly to remain the rest of his life. He won the 1930 Pulitzer award for the best American verse of the year.

Mr. MacQuisten has appeared in the British House of Commons in a suit of Shantung silk, courageously giving a lead to drably dressed politicians, says a writer in The Guardian. In 18th century Parliaments, the attire of members must have made the House a feast of color.

Plans for production of an all European news reel include talkies made in the Arctic regions. A German-Swedish company will use dog-sleds and a specially fitted steamship in carrying the first sound-film cameras ever to penetrate the Arctic Circle.

In the presence of thousands of citizens and visitors, Sudbury recently celebrated its entry into cityhood. Decorated floats paraded for an hour through the streets. Hon. Charles McRae, Minister of Mines for Ontario, presented the charter bearing the seal of incorporation.

The German aviators, Hirth and Weller, who reached Iceland on an attempted flight from Germany to the United States, have abandoned their project and Hirth sailed for Montreal with their small monoplane. His companion will take the next ship back to Germany.

Nationalize Coal Mines

Drastic Steps in British Coal Mining Industry Are Planned

Rt. Hon. William Graham, President of the Board of Trade, in a speech at Durham, England, said the recently passed coal bill was a Parliamentary step along the road which the British Government intended to follow in all its coal mining areas. The property of the people. His audience, composed largely of farmers, welcomed the sentiments expressed. "We are pledged as a Government to nationalize the mining royalties, and we hope the time will be found in the next session for that bill," Mr. Graham said.

BANKS FINANCE BALANCE OF THE 1929 WHEAT CROP

Toronto, Ont.—The statement that the Canadian banks had promised to carry the unsold balance of the 1929 wheat crop and that the arrangements were entirely satisfactory, were made by Premier John Bracken, of Manitoba, at the conclusion of the conference between eight managers of leading banks and three premiers of Manitoba, Alberta, and Saskatchewan.

Since the guarantee of the three prairie provinces to the banks for marketing the wheat crop expired August 1, Premier Bracken was asked whether the western provinces would again renew the guarantee to the banks.

"There has been no request made for guarantees for the new crop and it is not anticipated that a guarantee will be required," replied Premier Bracken.

"The guarantees were to cover the whole crop," he explained, "and the only difficulty arose through a small portion of it not having been delivered at the end of the crop year, July 31. It is concerning that portion that we have been having conferences with the banks."

"The whole matter has been satisfactorily adjusted," Premier Bracken was asked.

"Yes," he replied, "the banks and pools are carrying on with respect to the balance of the 1929 crop exactly as they did prior to July 31."

"Has the pool lost much money on the 1929 crop?" was the next question that the premier consented to answer.

"That question cannot be answered till the balance of the crop is sold," he said. "If the price goes much lower, there probably will be a loss, but if the price goes higher, there should be no loss."

"Are there no facts true that you are going to have a bumper crop in the west this year?"

"It will be a bigger crop than last year," Premier Bracken replied, "but smaller than 1928. The estimates run all the way from 325,000,000 bushels to 400,000,000 bushels. It is too early yet to make an accurate forecast, but the total will probably be nearer the smaller figure."

The premier intimated that there were more hopeful signs already for the marketing of this new big harvest, so that it would not be an added embarrassment to the pool.

The increase in the price of wheat by 9 cents in the last two or three days, he said, "will give a little to the reports of severe drought in the middle western states, bad marketing conditions in France and to an extent to the dry weather in the west."

"The initial payment of the Pool used to be \$1 a bushel," Premier Bracken was asked. "Now that wheat is below a dollar what will the payment be?"

"That's a matter which comes altogether under the jurisdiction of the Pool, and the banks from whom the Pool borrows," he said.

"The initial payment during the past few weeks has been 70 cents for 1 Northern, with lower figures for lower grades."

Heavy Wheat Carry Over

Vancouver Port Has 7,651,765 Bushels Of Last Season's Crop

Vancouver.—The new crop year of 1930-31, for the port of Vancouver, starts off with 7,651,765 bushels of wheat in store, a carryover from last season's crop, according to the weekly report of the Vancouver Board of Harbor Commissioners.

Since August 1 to date, exports from Vancouver total 701,185 bushels.

The railways report 367,000 bushels of old-crop wheat moving toward Vancouver.

Given Good-Will Sword

Ottawa, Ont.—Emblematic of goodwill and friendship, a 300-year-old Samuri sword was presented to His Excellency Viscount Cowdray recently by Saitji Suzuki, one of the party of seven prominent Japanese business men now on a tour of Canada and the United States. The ceremony took place at Rideau Hall, the vice-regal residence.

Lack Of Moisture Detimental To Crops

Much Uncertainty Exists As To The Probable Yield

Ottawa, Ont.—"Although the western crop is generally well advanced in the filling stage, there is still much uncertainty as to the probable yield," states the crop report issued by the Dominion Bureau of Statistics.

Lack of moisture in Saskatchewan and southern Alberta and damage from rust in Manitoba and southeastern Saskatchewan are features of last week's reports. Alberta crops alone have registered an improvement in the past two weeks, the large central area being again benefited as the last week-end by good rains.

Cutting of early wheat and barley is common in all three provinces, with indications that harvest will be general in a week or ten days.

The weather has again been hot and dry, with central Saskatchewan points registering over 100 degrees on the last day of the month. Effective precipitation fell only in central Alberta.

Rust infection varies greatly with date of maturity, variety, and stand of the crops. Although future weather conditions will have an important effect there is every indication that the damage will be light on the early, light crops. But heavy on the later crops, matured later. The telegraphic report from the Dominion rust research laboratory at Winnipeg for this week reads as follows:

"In Manitoba, hot dry weather of past week has hastened maturity of all cereal crops. Cutting of early fields of wheat and barley is now general in central and southern part of province. Losses from stem rust will be heavy in about sixty per cent of fields of common wheat in areas included within radius of sixty miles from Winnipeg.

Because of the weather, stem rust has not increased rapidly in Saskatchewan but has spread northward to Portage and southward to Shaunavon. Severity of infection about twenty per cent on common wheat in eastern Saskatchewan. Durums have only traces of stem rust. No stem rust reported in Alberta."

Tragedy At Royal Regatta

Racing Yacht Is Sunk In Collision And One Life Is Lost

Cowes, Isle of Wight.—A steward was drowned and a racing yacht, the "Lucilla," owned by J. Lauriston Lewis, was sunk in collision at the start of the royal regatta events. The King, aboard the "Britannia," witnessed the tragedy.

The "Lucilla," manoeuvring with the 12 metre boat for the getaway, was hit by A. P. Atson's big cutter, the "Lord Mountbatten" and went to the bottom in three minutes. The "Lucilla" rescued the survivors of the "Lucilla's" crew.

When the crew of the "Lucilla" came ashore it was stated that William Saunders, a steward, had lost his life.

The King saw the accident from the "Britannia," which at the time was leading in the race for big yachts.

The "Britannia" won the race, which was excitingly close throughout, and thereby scored her 200th victory.

As the "Britannia" swept across the line the King could be seen standing on the deck holding a cigar and evidently pleased with his victory. At sight of him there was renewed cheering and waving of hats and handkerchiefs from the throng ashore.

Soviets Support Chinese Reds

Moscow.—"Pravda," mouthpiece of the Comintern, has issued a clarion call to the proletarian masses and Communist parties throughout the world to support the Chinese revolution. In each factory of enterprise and in every part of the world, the paper said, there should be established committees for enforcing the policy of "hands off the Chinese revolution."

Technical education in Saskatchewan will be promoted by a new technical college at Saskatoon which will afford accommodation for 1,000 students.

WILL APPEAR IN MOVIES

This is the most recent portrait of Kathleen Greenwood, daughter of Right Hon. Arthur Greenwood, Minister of Health, in the MacDonald Government, and one time head of the Department of Economics at Huddersfield Technical College. Miss Greenwood is adopting the movies as a career.

Plans To Visit Argentina

Prince Of Wales May Pay Visit To South America Next Year

London, England.—The Prince of Wales, who, among his many other roles, has been called the British Empire's "best travelling salesman," plans to visit Argentina and Brazil next year, it has been known recently.

The visit of the Prince to Buenos Aires will be for the particular purpose of opening the British trade exposition.

The first official announcement came from Buenos Aires when Ambassador Ronald MacLeay informed Minister Irigoyen that the Prince of Wales would make the visit.

It has been announced that the British heir will extend his visit to Brazil, but it was not known whether he would visit other Latin-American states.

Reports that the Prince would visit the United States next year have been definitely denied.

Will Be Of No Benefit

Lumbermen See No Benefit In Washington Tariff Ruling

Ottawa, Ont.—Canadian lumber merchants in British Columbia and the Yukon Valley express the opinion that the announcement from Washington that all saved lumber and timber, if not further manufactured than planed or dressed on one side, will be admitted free into the United States—will have little effect on Canadian trade.

The view of leading lumbermen is that the Washington ruling is only a clarification of the tariff which carries with it no particular benefit to the industry from a Canadian standpoint.

Ransom For Missionaries

London, England.—The Church Society has given its Fuchsian representatives authority to pay the ransom demanded by the captors of Edith Nettleton and Eleanor Harrison, British women missionaries of the British church, who were held for ransom to accomplish their release. The amount demanded was \$50,000 in Chinese money or about \$10,000 in gold.

Heavy Gold Imports

Montreal, Que.—Total gold imports to this country from New York, since the movement started about two weeks ago, reached \$14,500,000.

Similarly, gold imports to the Bank of Commerce and the Imperial Bank of Canada, in equal amounts,

Washington.—The first complete preliminary census figures showed continental United States to number 122,728,873 inhabitants.

The total figure contains an estimate of one Pennsylvania township, return from which are not complete.

Ottawa.—Outgoing possessions add 14,772,688, making a grand total of 137,501,561.

The total population increase of the 48 states and the District of Columbia was 17,018,253.

Population Of United States

BUREAU TO AID IN KEEPING TRADE MORE STABILIZED

Montreal.—The gravity of the business depression with consequent unemployment and lack of consumer demand confronts Canadian business with the necessity of establishing a research and administrative bureau composed of representatives of the government, the universities and the business interests of the country, whose duties should be to keep a permanent survey of business developments within Canada, to anticipate possible trade difficulties and in advance to take preventive measures, said Joseph T. Crowder, president of the Retail Merchants' Association, of Canada, in convention here recently.

Federal, provincial and municipal governments are the bodies most capable of creating employment, said Mr. Crowder in his address.

Their work could be more intelligently planned if they knew in advance just what was likely to happen in business circles, and where indications pointed to impending trade depression, these bodies could to advantage so plan government works and employment in certain commercial enterprises, thus sustaining employment and consumer demand.

Explanations are not lacking for the reduced volume of business during the last six months, said Mr. Crowder. He cited the excess amount of wheat held over from last year, the stock market crash, over-production, the natural business cycle and the increase of unemployment.

"Unfortunately," said the president, "business is influenced by mob psychology. When one group ceases buying from forced economy, the disastrous effect of such custom is easily seen."

While admitting the influence of world conditions upon Canadian business, yet generally speaking, so long as our farmers do a reasonable good job of farming, and factories do an equally good job of manufacturing and transportation agents the same, each taking advantage of modern methods, inventions and facilities, it is difficult to understand with the amount of money in the country remaining reasonably constant, why such things as hard times or trade depression should overwhelm us with such distressing regularity, said Mr. Crowder.

"Today," he continued, "we actually have farmers producing more foodstuffs than they can sell and factories producing more goods than they can sell, each in actual want of the other."

Population Of United States

Census Figures Show That Inhabitants Now Number 123,728,873

Washington.—The first complete preliminary census figures showed continental United States to number 122,728,873 inhabitants.

The total figure contains an estimate of one Pennsylvania township, return from which are not complete.

Ottawa.—Outgoing possessions add 14,772,688, making a grand total of 137,501,561.

The total population increase of the 48 states and the District of Columbia was 17,018,253.

To Attend Bar Conference

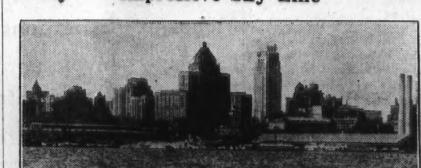

Eight Judges and 126 Lawyers Sail From England

Southampton, Eng.—Eight judges and 126 lawyers who comprise the party of British representatives to attend the forthcoming conference of the Canadian and American Bar Association at Toronto, and Chicago, sailed recently for Canada aboard the steamer "Duchess of Atholl." Viscount Dunedin heads the judicial party. Attorney-General Sir William Jewitt and Sir John Simon, who headed the Indian Statutory Reform Commission, are among the lawyers.

Vienna.—Prof. Sigmund Freud, world famous psychiatrist and scientist, was informed he had been awarded the Goethe prize, the greatest scientific and literary distinction in Germany.

Impressive Sky Line

Latest picture of Toronto's evergrowing waterfront showing prominent by the Royal York Hotel and the Bank of Commerce building. Other structures easily noticed are the Temple and Robert Simpson buildings, Sterling Towers, old and the new Union Station, Northern Ontario, Canada Trust, Metropolitan, Dominion Bank, C.P.R. buildings, the Bank of Hamilton and the heating and power plant of the Union Station.

Window-washing De Luxe.

Those out on Main Street north Thursday about 10 a.m. were surprised and amused to see a prominent Edmonton Optician washing the windows of the Sun Office, in payment of an Election bet. The performer wanted to clean the inside of the windows, but as someone had borrowed The Sun's stepladder, the operation was postponed until Mr. Mecklenburg's next visit to Stony, on the 21st.

Carvel Clippings

The funeral took place on Thursday last of the late Michael Steeyk Sr., who had passed away in an Edmonton hospital. The funeral cortège had motored out from Edmonton. Services were held in the Greek Catholic Church at Carvel, after which interment was made in the churchyard.

Deceased was in his 78th year, and had been ailing for some time.

He leaves to mourn his loss four sons, Mat, Stephen and Romen, all of Carvel, and Mike of Edmonton; 3 daughters, Mrs. John Proch, Mrs. Mike Sabudaska and Mrs. Pytel.

Messrs. J. W. Edkins and Emil Ulmer left on Monday morning for a motor trip thru southern Alberta. They're tra

veling in Emil's Gondola.

Stony Plain U. F. A. Local

meets tonight at the Royal

Parlors.

Leduc Representative: M. S. Moyer, who comes to Leduc from Stony Plain, is the new foreman at J. F. Stiles' lumber yard.

Missionfest Services were held Sunday last at Blueberry Church. Rev. A. J. Mueller of Edmonton was in charge of the services.

Chas. Reiling, who farmed in this district some 20 years ago, and then left for Chicago was a visitor in Stony on Saturday last.

The W. Edmonton recount on Monday shows: Stewart 9223, Jamieson 8960. Majority for Stewart over Jamieson 263.

A dance is billed to be held at Muir Lake Community Hall to-morrow evening Aug. 15th.

United Church Notes.

Services will be resumed at Stony Plain Church on Sunday next. This is not the special re-opening Service which will be held later, but it is hoped that a good congregation will be present.

At the Spruce Grove Services last Sunday two very beautiful duets were sung.

At Holborn Mr. Witmer Jr. preached a splendid sermon to a large congregation.

Rev. G. A. Sander preached to a good congregation at Heatherdown and Onoway churches.

Now that the holiday season is drawing to a close renewed interest is being shown at all points.

Field Crops Day at Lacombe

The annual Cereal Crop Field day will be held at the Dominion Experimental Station, Lacombe, on Wed., Aug. 20. This will be a day of special interest to all farmers interested in the growing of good crops, but particularly will it interest members of the Seed Growers' Association and Co-operators who are growing varieties under numbers.

The Dominion Cerealist, Mr. L. H. Newman, will be at the Station on this date.

A meeting of the Alberta section of the Canadian Seed Growers' Association will be held at the close of the field meeting.

(576)

Bill Havon of Sudbury, big Alsatian pug dog, an aristocratic background, from the Burk Kennels, Toronto, is on a 7,000-mile trip from Toronto to Yokohama, by Canadian Pacific Express. He is the property of A. P. B. of the latter city. During his long journey the dog is in charge of Canadian Pacific officials.

Twenty New Zealand athletes and twenty athletes from Australia have already arrived at Hamilton for the Empire Games under the chairmanship of E. W. Beatty, chairman and president of the Canadian Olympic Committee. There will be representatives from Great Britain, South Africa and nearly every province of Canada, at the Games, which are scheduled to be held in the Ontario city next month.

Doubling the population of Cobourg for the day, a force of more than six thousand members of the Canadian Pacific Engineers from the Ontario district retired on pension recently. The men are John Bennett, Mr. Bennett, and John G. Moore and all have unblemished records. Bennett's service goes back to 1853 while Douglass and Moore go back to 1855 and 1859 respectively.

The Toronto Industrial Commission announced that 150 men from the United States have come to Toronto, with which the commission has cooperated. Of these 150, 100 have come from the United States and 50 originated in other parts of Canada. The 150 of these new industries include a number of outside concerns whose entrance into the assembling and manufacturing field in Toronto means an important growth and development in the city's industrial life.

The old belief that the Red River forces a change in the men who take horses tried out recently as Harry Pearce, undefeated Australian Single Sculls champion and one time world champion, stood on the Red River at the time of H. R. Pearce, Olympic amateur champion, in a trial run as a guest of the Winnipeg Rowing Club. Pearce is a competitor in the Empire Games at Hamilton.

For the first time in history, horses were ridden over the "Ball Pass" near Banff recently. The riders were Jim Brewster, J. Murray Gibson and Glory Temple, the latter a local athlete. The purpose of the trial was to locate camps for the Trail ride at end of July. Only three hours were required to ride from Banff to the "Ball Pass." The pass has hitherto been considered impassable except for Alpine climbers.

CHAPTER XXIV.—Continued.

So, alone at the window, Grandma watched her old friend carried by to his last resting place, followed, it seemed to her, by all those to whom he had ever ministered. Wickfield's elite in shining automobiles; shabby fitters from the country with sad faces peering from behind torn side-curtains; farm horses harnessed to well loaded carry-alls or buggies; a long, long line on foot following the others. And last, straggling behind them, hurrying breathlessly, a woman trundling a baby in a dilapidated go-cart—a baby whom the old doctor had helped into the world only a few months before. Yes, all Wickfield was there, thought Grandma. . . . No one had forgotten.

"And God shall wipe away all tears from their eyes," she murmured softly. "And there shall be no more death, neither sorrow, nor crying"

CHAPTER XXV.

April, month of laughter and tears, had come and gone. Spring was "early," according to the inhabitants and weather prophets. With May the red had left the maples, lilacs were a purple glory, and wee pink buds adorned the orchards. "What a thrilling, beautiful world it is!" mused Charman, as she walked home from school one afternoon. It was crime not to feel light-hearted every minute. I believe I should if it wasn't that John is leaving us. Grandma will miss him terribly, and so will I."

Yes, in another week the little office would be closed again, and the old bedroom crying for an occupant. John Carter had stayed until a furnace fire was no longer necessary. On that he had insisted. He had been surprised and infinitely touched when Gam Garfield told him that all the doctor's worldly goods were now his own.

"He was quite bowled over," the little lawyer said to Grandma. "He hadn't the least suspicion of what was in the doctor's will."

"Did Edward love him everything?" she queried.

"About everything there was—the house and furnishings. All bills were to be settled (there weren't any to speak of), and any unpaid accounts on his books were to be cancelled. Two hundred dollars to Charman, for a keepsake, and the rest to John Carter. Yes, the young man was bowled over. Not a great legacy, but

it showed that our old doctor loved and trusted her. And of course we all know how he loved Charman. Wickfield will never be the same without him, will it, Grandma?"

Grandma sighed and answered: "Not to some of us; and yet, Gam, it's a wonderful thing to live a long life and then die in the harness before you get to be a burden, as Edward Howe did. I couldn't wish him back. Just look at me!" she said, exasperated. "Here I sit all day long just watching the passing—don't even get out of my chair when some one comes in for a spoon of cotton—no earthly use except to keep Charman company, or—

". . . or use!" exploded Gamalil indignantly. "Woman, any one 'round Wickfield who's any more use!"

You've listened to and sympathized with all our troubles for twenty years, Grandma Davis, to say nothing of all the years before when you were always ready to lend a helping hand in time of trouble. Many's the time I've heard my father say, "Folly Davis is a good friend!" And you're a good friend, still. I haven't got one value any more, and there's mank a Wickfielder who'd say the same."

"You're a good friend, too, Gam," smiled the old lady, patting him gently. "I'm sorry to forget how you persuaded Deacon Purdie to give you that suit, just so's I wouldn't get into trouble about those beads. There's times when I get thinking over that transaction, that I'm the last mate worried."

The lawyer grinned.

"You can rest easy if that's the worrison you're got on your conscience! Once I bought a horse of the deacon—ought to have known better, of course; but I was a young spring then and thought I knew the world—likewise a horse. But I was mistaken in both cases. I wouldn't worry about those beads, Grandma. Well, I must trot along. I wanted to see Charman and tell her she'd fallen her to a legancy, but you can break the news instead. What'll she do with it, do you think?"

Charman's face clouded as she replied: "Most likely she'll shingle the roof, and fix the leaks in the back hall. I wish we were more commonsensible, Charman and I. But there'd trowd our hearts to leave it, so what's the use? And if Charman wants to use the doctor's legacy to keep us here a little longer, I'm sure Edward Howe would be the last one to think her foolish."

It was on this very subject that Charman was meditating that May afternoon as she walked home from school.

"It's too lovely a day to spoil with worry," she told herself, "and I've got to face things sometime. It's time just John Carter and I are going to split the money he pays for board and rent. Summer's coming, and we can weather that, thanks to the dear old doctor for helping me to do some of the repairs; but next day—Well, 'sufficient unto the day is the evil thereof.' I won't worry—yet. Somehow this day makes me think of Jim. He was rather inarticulate about it, but he said once when he was a little boy, that the smell of apple blossoms made him feel 'funny all over,' and it's my private opinion that it had the same effect on him now. I wonder if it is as lovely in California as it is in Wickfield. I'm inclined to doubt it. I wonder if Jim is ever coming back—even for a visit. I wonder"

A sharp rap on a window pane informed the girl that she was passing her own front door. She looked up, laughing, and said as she went in to Grandma: "I was in a trance. I'd have walked into a river if there'd been one handy. It's such a beautiful day, Grandma, that I got to dreaming. What's been happening to you?"

"Not much, childy. The doctor couldn't stop to do the dishes, but Lizzie Baker found 'em in the sink when she came after some flour, and did 'em up. She forgot to rinse out the dish towel, but she was real kind

to help anyway, and I told her not to return the flour—it was only half a cupful. She's had another letter from Sarah Bennett, and what do you think has happened? That Darling girl, the one that set Wickfield on end with her green hat, has been out to California on a trip with a girl friend. They stopped to call, and Sophie invited 'em to stay a day or so. Jim's been escorting 'em around, showing 'em the sights, and he's been too busy to write to you. My stars! that reminds me a letter came this morning. I was about to open it, but that's one crime I've never committed—opening other folks' mail. If a letter is private, I'll in to know what's in it."

"You could have opened it, of course, Grandma," said Charman, bringing the letter and setting herself in the old rocker. "Jim wouldn't say anything you couldn't see. I'll read it aloud: 'Dear—' Charman paused, then looked up at her grandmother with a puzzled frown. "He says, 'Dear playmate.' He never called me that before."

"You've been playmates all your lives, haven't you?" replied Grandma literally. "I think he just means to be friendly."

"friendly," echoed Charman. "Well, I guess you're right, Grandma, as usual." Her voice was the least bit hard, and the color had faded into her face. It was still there when she finished reading. "He's evidently enjoying the fair Clara's visit," she said coldly. "And he's got the California fever, too. I wonder if he's forgotten a New England spring."

He hadn't said a single word about coming back. Well, if Jim wants to spend his life in a stucco bungalow with a palm tree shade, he's welcome."

She tossed the letter onto the table contemptuously and went upstairs, while the old lady's eyes followed her retreating figure with a feeling of amusement and distress.

"I donno what's in that letter to upset her so," said Charman, reading it through. "Charman," she called when she heard the girl's steps upon the stairs, "come here. I guess maybe you overlooked Jim's postscript."

"Postscript?" said Charman, a note of hope in her voice, though her eyes were cold. "Well, what is it?"

"Here," said Grandma, and handed the letter to her irate granddaughter, who, going closer to the window, read:

"Charman, when our old crabapple tree is white with blossom, will you pick an armful and carry them to the cemetery for Doctor Howe? He told me once that something about those blossoms always reminded him of his Kate. I'll be sure to pick some and bring some after that I've put 'em in a bowl on the desk in his office, where he'd find them when he came in. I don't want him to miss them now; and you're the only one I can ask who would understand. You do, don't you? Jim."

"Well," said Charman, as the girl's hand holding the letter, dropped limply to her side. "I donna but I'd rather a boy would think of doing a thing like that, than to have him appreciate small-paneled windows. I donna but—"

She paused, looked up, and her lips broke into a knowing smile. She was talking to an empty room!

(To Be Continued.)

USES PINKHAM MEDICINES

Praises Vegetable Compound, Blood Medicine and Liver Pills

Birchtown, Quebec—"I live 13 miles from town on a farm, with all my home comforts. I have a small garden, and am able to attend to it. At the Change of Life, I became nervous and irritable. The Vegetable Compound helped my whole system, and I feel better, my appetite is good and I am able to do my work. I have a son, 14, who has the Blood Medicine and the Liver Pills and they helped him. I will answer letters from women asking about your medicines."—Mrs. Richard Charman, Birchtown, Quebec.

Italy and Volcanoes

Italian Peninsula Subject to Frequent Seismic Disturbances

Another earthquake has visited Southern Italy, destroying towns and leaving several hundred dead. In its course the disaster is not so severe as others which have occurred in this area, but it is none the less a blow to those whose homes have been destroyed, or who have been bereft of kin and friends.

The lower portion of the Italian peninsula is of volcanic origin and subject to frequent seismic disturbances, but no part of the country is exempt. Last year the City of Bologna, in the north, experienced twenty-two earthquakes in a single month. Rome was badly shaken in 1909, and again in a half dozen smaller seismic disturbances resulted in these instances, but in March, 1928, a number lost their lives in a disturbance of unusual violence in Lombardy. Recent earthquakes, however, compare with that of Dec. 28, 1909, which virtually destroyed the important City of Messina and many towns in Sicily and Calabria (the toe of the Italian boot). The number of lives lost in that disaster was officially estimated at over 77,000. Only the Japanese earthquake of 1923, which resulted in approximately 100,000 deaths, compares with it in destructiveness. —New York Evening Sun.

Will Preserve Historic Objects

Dinosaur Tracks Are Found In Canyon of Peace River Country

The remains of British Columbia's earliest inhabitants, who died several hundred thousand years ago, are to be preserved by official decree. Under an order-in-council the government declares dinosaur tracks and fossil bones of ichthyosaurus found in the canyon of the Peace River last year to be historic objects. To remove or deface them in any way is a serious offence. These relics, discovered by railway engineers during a survey last summer, are regarded by scientists as highly important since they show the paleontological data of the prairies that penetrated into British Columbia by following the course of the Peace River. No such remains had been found in British Columbia before, though the Alberta foothills are rich in such material.

Swest's Worm Exterminator is acceptable to children, and it does work surely and promptly.

Sinking In The Sea

Ireland In Danger Of Disappearing

The Royal Irish Academy, Ireland's most learned body, has been debating the suggestion that Ireland is gradually sinking into the sea. The marine erosion especially on the East coast has become serious. A learned engineer pointed out that during the past winter at many points there has been a marked lowering of the beach level.

The director of the State's geological survey said this coast depression was not merely local, but part of a depression affecting Western Europe. The land is sinking at present because, while both land and sea are rising, the sea is rising the more rapidly. The sinking is a few centimeters per century.

London Health Records

London expects 1930 to be one of its healthiest years. The rate of the first four months death rate numbered 350, a decrease of 12,000 from the same period of 1929. Deaths from influenza decreased from 2,863 to 208. The exceptionally mild winter is given credit for the improvement.

Will Destroy Fertilizers

Fertilizers have become such pests in the Gulf of St. Lawrence that the Canadian Government recently expended \$5,000 for the purchase of an aeroplane, bombs, and the hiring of a pilot to kill these fish. The porpoises were destroying all marine life in the gulf.

The highest and lowest point in the United States are within 100 miles of each other in southeastern California. Death Valley is 276 feet below sea level and Mt. Whitney is 14,522 feet above.

For all Skin Abrasions—Minard's Liniment.

OPEN SORES

REAL IN QUICKEST TIME KNOWN

"Sores on legs, ankles, for ankles. Doctors and nurses have been using it for years. It has proved a wonder in the treatment of sores, ulcers, blisters, boils, carbuncles, etc. It has been used in the treatment of all skin diseases."

Little Helps For This Week

"For He hath said, I will never leave thee nor forsake thee."—Heb. xiii. 5.

O Love Divine, whose constant beam

Shines on the eyes that will not

see, And bids us bless us while we turn

From Thee.

Not blinding, nor climes, nor breed

Thee, Nor tempests, nor tempests,

Wide as our need! Thy favors fill;

The white wings of the Holy Ghost

Stoop seen or unseen o'er the heads

Of all.

—John Greenleaf Whittier.

The only thing that can really darken the soul is something coming between it and God; but that is impossible so long as the soul remembers His presence. He touches us on every side with His loving, compassionate care.—Henry Van Dyke.

Miller's Worm Powder, being in demand everywhere, can be got at any chemist's or drug shop, at very small cost. They are a reliable remedy for worm troubles and can be fully relied upon to cure worms from the system and abate the suffering that worms cause. There are many mothers that rejoice that they found available so effective a remedy for the relief of their children.

Homing Pigeon Had Stamina

Although Badly Wounded Makes Epic Flight To Home Loft

Making a tough flight from Moose Lake to Cormorant Lake, base of the Royal Canadian Air Force, Mile 42, Hudson Bay Railway, a homing pigeon badly chewed to pieces managed to get to home loft before it collapsed. The bird, along with two others, was in a hamper aboard one of the patrol planes which stopped at Moose Lake. The pigeons were removed for a moment, and some husky dogs made a raid on it. They killed two birds and bit through the neck of the third one, which managed to get away. It reached the loft 24 hours afterwards, a flight that should normally take less than an hour. Frank Bradley, pioneer of the Air Force, sewed up the wounds. The carrier will live.

Minard's Liniment for Lumbago and Neuralgia

Need Protection

"I never could understand why a fellow should not be allowed to have more than one wife."

"Well, after you are married you'll realize that the law protects those who are incapable of protecting themselves."

Restless CHILDREN

CHILDREN will fret, often for no apparent reason. But there's always Castorial Harmless as the recipe on the wrapper; mild and bland as it tastes, it will help to quieten a youngster more surely than some powerful medicine.

That's the beauty of this special child medicine. If it may be given to the tiniest infant—as often as there is need: in cases of colic, diarrhea or similar disturbance, it is invaluable. A spoonful of the liquid, or a few drops to wash off a cutaneous sore, do not suggest any danger. Whenever children don't eat well, don't run to the doctor; have this up, and this pure vegetable preparation is usually all that's needed.

The Driver Hoofed It Home.

While Mr Carl Freithoff was driving home with his team, on Saturday night, from a shopping trip to Stony and was crossing the Witmer bridge three miles north, one of the team fell. Carl got out of the rig to investigate, and found the animal had his leg caught in the front wheel. On extricating the limb the horse arose, and before he could get back in the buggy, the team had bolted, leaving the driver to hoof it home.

Sporting Notes

Stony Plain baseball fans are in for a carnival of ball games the next few weeks, as a series of games have been arranged for, which started on Sunday, Aug. 10; with others on Wed. the 13th; and Sunday, Aug. the 17th; The games will all be played on the local diamond; and the teams are to be: Onoway, Bruderheim, Duffield and Riviere Qui Barre.

The ball game here on Sunday, between Stony and Bruderheim had lots of thrills and a few accidents. Twas a perfectly good game up to the beginning of the 8th, when the score stood 2 runs to 1 in the visitors' favor. The local team didn't do so well from then on; the game resulting in a win for Bruderheim by 6 runs to 1. Phil D Fuhr was referee. A local player had his arm hurt by a pitched ball and a young girl was hit by a foul ball.

Stony Plain and District

Rev Henry Hennig, from St Louis Lutheran Seminary, is visiting his parents in this district at present, and will shortly proceed to his ministerial appointment in Vegreville. He preached, Sunday last, at the two Lutheran churches (Missouri Synod) at Golden Spike—St. Paul's and St. Peter's.

With but few exceptions, the High school examination results in Stony, as far as can be gleaned, are very poor. The grade 8 results will be published this week, but will not be published in the papers, as heretofore.

The officers and members of the Stony Plain Lodge Loyal Order of Moose will celebrate tomorrow night the first anniversary of the founding of the local lodge. The event will be celebrated in the Moose Hall.

Mrs C. Rivest will commence her piano classes on Tues. Aug. 19. Phone 56, Mrs. H. Oppertshauser.

FOR SALE—1 McClary Range, 1 small coal heater, 1 dining room suite, 1 single bed. Apply Mrs L Wight.

Off with the old Black Rims; on with the new White or Yellow Gold. Do you know that the black frames are out of date; and that white is the proper thing in spectacles wear? Be up to date and see M. Mecklenburg, the well-known Edmonton Optician, at the Royal Hotel, Stony Plain, on Thursday, August 21st. 10170 101st St., Edmonton. Phones 1072 & 2946.

A Youth Injured.

A sad accident occurred on Saturday afternoon last, on the farm of Mr Ph Schram, near Spruce Grove. His elder son Philip was operating a tractor attached to a breaking plow, when the machine stuck in a soft spot. Some planks were procured, to put under the wheels, in an effort to release it. When the tractor was re-started, it broke off a piece from a plank, which struck Mr Schram's young son Adam on the side of the head, rendering him unconscious. He was brought in to Stony Plain, where Dr Walton attended him; after which he was taken to the Misericordia hospital.

Bright Bank Briefs

The hum of the binder is heard everywhere. Some crops are turning out better than what was expected.

Mr J Eatock and family returned from a two-weeks visit with Mrs Eatock's parents at Wainwright. They report crops not quite so good as in this district.

Hansen's Corners U. F. Local is reported to have ordered a carload of twine.

Mr and Mrs Dave Dickie are recovering from a severe attack of the grippe.

Mr Roy Lent and his sister Mrs M. Duncan of Duffield and Mr and Mrs E Wollard of Waubamun were Sunday visitors at the home of Mr. and Mrs Dan McDonald.

Having achieved quite a success with his non-refillable rat trap, "Big Jim" is now devoting his energies to perfecting a non skid necktie.

Tenders for School House Repair and Renovation, White Horse S.D. No. 746 (Mewassin.)

SEALED TENDERS will be received by the Board of Trustees of the above School District at the office of the Secretary-Treasurer up to noon on FRIDAY, AUGUST 22nd, for the erection of a One-Roomed Frame School Building after Plan Number . . . Plans and Specifications may be obtained from the Secretary-Treasurer on payment of a deposit of \$5.00. Plans must be returned within 24 hours, and deposit will then be refunded.

A marked cheque for five per cent of the amount of tender must be enclosed with each tender as a guarantee that same is bona fide. No tender will be considered without this cheque attached.

The lowest or any tender will not necessarily be accepted.

Makes His Last Run

Richard Christopher, for 50 years including the Prince of Wales, Governor-General of Canada, the Duke of Connaught, and many others. It is reported that in all these years he has never had a single accident. A touching feature of his last run was the fact that his son, a locomotive engineer, also a locomotive engineer, acted as his father's fireman.
